

NEW RECHARGEABLE HD MOTOR CDR45LUQ

We are thrilled to announce the launch of our new Rechargeable HD Motor. Powered by a built in battery source, it doesn't require pre-existing wiring or an external power source.

The new HD motor offers twice the lifting capacity as its predecessor and is also the quietest motor in its class. Capable of lifting shades up to 144" wide and 156" tall.

FUNCTIONAL BENEFITS:

With adjustable speed, an elegant soft-stop function and improved sound dampening, this is our quietest rechargeable motor yet.

Our motors utilize two-way communication to provide up-to-date feedback on battery levels and shade positioning via the CBM Network/POE Bridge.

Three speed settings to suit your needs. Faster speeds for larger shades and slower speeds for smaller shades can be customized by installers on site.

Utilizes micro USB charging, a custom charger is therefore not required. Use any USB charger to renew battery.

COMPATIBLE PRODUCTS:

POE Network Bridge
Wi-Fi Bridge

Handheld Remotes

Surface Mount Transmitters

5V USB Charger

Please contact our customer service at @sales@cblind.ca to book an appointment for demonstration and training on our new motorized products as well as cordless hardware.

Works with Google Assistant, Amazon Echo & Siri.
